“ I pray that your with our Lord and your at peace. My memory is when I met you in 1984 and you were so full of life. I feel bad that you never got to meet your daughter.

You would have loved her. I know she loved you for giving her to me. I didn't think I would have children and you gave me the most special gift ever. And I truly love you for that. I am sorry if I hurt anyone in the process. But I don't regret anything.

I have wanted so much for Jenna to meet you and your family. She would have loved being from a big family. You are now in Gods hands and you won't have stress or pain

And you will be with your parents. Love Karen
