“ I met Robert one day when I had to go and tell him his dogs kept getting into my backyard, It started happening daily and I would give them a treat and let them out my gate on Turre St and they would run around back to their street on Sunrise Court to get back in their yard. He seemed like a very nice man and I will miss his dogs immensely I know one was named Fish and she was a female and another one was named Thor and he was a male, then there were two others. Fish and Thor soon disappeared and I never saw them again, but the other two were left out back and myself and a neighbor continued feeding them for four months They have been gone for one week now, and I am very sad as I don't know where they have gone My condolences to the family Respectfully, Dana
