“ I remember that Day of complete desperation when you began the Journey with all of "us" at that "place", the first month's we spent together at your parents in your trailer as you couldn't sleep & didn't want to be alone.

The many events we attended together with all of our "people" learning a new way to live.

The Day I introduced you & Tom on that "Blind Date"... The day Tom n I stood with you holding your hand when Dr Brenner came in giving the news that would change the last several years of your life. My Kids and Nephew having an adventurous Aunt Sherry the campouts, events we would attend and the memories we've made. I THANK YOU for sharing your life with us .. Uncle Tom was already Uncle Tom now we had a bonus ❤️

No more suffering for you my Friend. I am sad for all of us yet at peace for you. I'll watch over Tom n Lizzy and I know without a doubt you will be watching over us.

Always in my Heart ❤️
